How to be updated about European calls and take part in Information Days

Information days after Covid-19

Held on-line
More accessible
More affordable

Same essence
Online information days have the same dynamic as physical information days

Networking allowed
Networking is still facilitated by several platforms
- B2Match: in the same platform a videoconference tool has been implemented
- YouTube: one can use the chat to promote their agency
- Others: virtual bilateral meeting rooms
How to be updated about European calls and take part in Information Days

It is easier to have all the information sent periodically than having to search it for oneself.
1. National Contact Points

How to be updated about European calls and take part in Information Days

Main structure to provide:
- Guidance
- Practical information
- Assistance
  - H2020

Search by:
- Country
- Function
- Brussels

https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/support/ncp
How to be updated about European calls and take part in Information Days

Newsletters of RDAs and projects under the same topic of interest

https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home
2. Fellow RDAs and projects

Example: Peer learning of Innovation Agencies [INNOSUP-05]

1. Go to the Funding and Tenders Portal

2. Search any topic of interest and open it, in this case INNOSUP-05

3. You will see all the information available about the topic
2. Fellow RDAs and projects

Example: Peer learning of Innovation Agencies **INNOSUP-05**

4. Go to the bottom to find past and ongoing projects

Some interesting calls for RDAs

Peer learning for innovation agencies (INNOSUP-05)
Deadline 14th of October

This call seeks to foster the exchange of good practices while using peer learning to investigate and support SME innovation with an intention to put those newly developed skills into practice. It is a relatively easy call since it only requires 3 partners, all being RDAs, and the proposal does not have to be too long. It is a good call to start getting involved in European calls.

Supporting the development of territorial RRI (Swafs-14)

This call aims to implement RRI on a territorial level (local, regional... up to consortia) considering the 5 principles of RRI: ethics, gender, scientific education, public engagement and open access. Partnerships seek solutions for common territorial issues and RDAs are the link between academia and citizenship.

Grounding RRI in society with a focus on citizen science (Swafs-23)

To implement institutional changes to promote citizens’ and associations’ engagement in science. Integrated approach. And covering the five fields of RRI. The overall aim is to contribute to a greater involvement of all stakeholders in R&I, including a sustainable engagement with citizens, and a more scientifically interested and literate society.

Most likely also in Horizon Europe!
