UPSKILLING FOR MORE CREATIVE CIRCULAR ECONOMY

Project achievements

CIRCULAR CASE STUDIES AND GOOD PRACTICES

The 13 U-Eco Case Studies and Good Practices have been finalized and are ready for download!

The case studies have been selected in the European as well as in international scene within the 5 areas that have been previously identified as the ones with the highest entrepreneurship potential in a circular economy context. These case studies offer innovative examples of businesses that utilize circular principles and practices in an inspiring manner in the fields of: Food and Biomass (Agriculture, Forest, Food and Energy); Construction and Demolition; Digitalization, Sharing Platforms, and Services; Plastics, Secondary Materials, and Innovation; and Water Treatment and Reuse.

MANUAL FOR TRAINERS

The final stage of our U-Eco project is now close to completion. The manual for trainers is already available for download in its English version. The French, Polish, Romanian, Spanish and Swedish versions will follow soon!

The manual features guidelines and training tips for trainers to use the U-Eco material in their activities, including an overview of the main points of the Circular Economy.

Current project status

U-Eco is now reaching its final stages. The partners are currently working on the translation of the U-Eco manual, which will be reviewed by end-users and adjusted.

Next, the partners will participate in a training for trainers and organize events to share with all of you the main insights from our project, as well as to introduce all material that has been produced within it.

Keep following us to receive news on what is to come!

Briefly about the project:

U-ECO FOCUSES ON THE PROCESS OF TRANSITION TOWARDS A CIRCULAR ECONOMY, ADDRESSING THE NEED FOR SPECIFIC CIRCULAR ECONOMY TRAINING THAT IS ABLE TO BOOST EMPLOYABILITY AND SELF-EMPLOYMENT AND MEET NEW LABOR MARKET DEMANDS.

What's next?

MAY 2021

TRAINING OF TRAINERS

The consortium is getting ready for the training of trainers, which is scheduled to happen in May 2021, organized and led by our partners from Defoin in Spain.

MAY 2021 - SEPTEMBER 2021

U-ECO EVENTS

The U-Eco partners are happy to start organizing the U-Eco events, which will share insights and the material that has been developed within our project.
