Summer School 2023

EURADA event

Brussels | 4 - 6 July

EURADA Summer School 2023

Brussels, 4 | 5 | 6 July – rue Montoyer 24

We will use a comprehensive approach to organisational improvement focusing on three key areas of process, product and people.

By taking a holistic view of these three areas, development agencies' staff and other professionals can identify opportunities for improving and developing strategies to maximise their performance.

We offer a three-day learning programme supported by experience-sharing methods and topic discussion.

Scope of the event

During the 3 days of EURADA's Summer School, regional practitioners will acquire knowledge, valuable contacts and skills to identify opportunities for improving and developing strategies to maximise their performance.

During this full-immersion in-person Summer School, experienced speakers and the EURADA secretariat will utilise a comprehensive approach to organisational improvement focusing on the three key areas: **Process, Product, and People**.

The Summer School will consist of a three-day learning programme supported by experience-sharing methods and topic discussion on **International Cooperation, Green Transition, Intellectual Property Protection, Regional Cohesion Policies, Strategic Foresight, Internationalisation of Local Authorities and Regional Development Agencies, Talent Attraction** and **Women Empowerment in Business**.

Approach

Summer School speakers and instructors are former directors of development agencies, people with ongoing high responsibilities on EU project management and recognised external experts from consultancy companies.

Summer School 2023

EURADA event

Brussels | 4 - 6 July

Structure of the event

4 July - Focus I: PROCESS

Vision, policies, strategies, procedures, services... are they all part of and coherent with a well-defined regional strategic plan?

Together we will analyse some of your main assets and values. Make your stakeholders confident with the success of interregional and international cooperation programmes and position yourself at the top range of European regions.

5 July - Focus II: PRODUCT

All about ensuring you have something that'll turn your region a profit... What is your unique "selling" proposition that'll make it stand out from other regions in Europe?

Industry, products, services, culture, nature, quality, a holistic way of living...

You'll need to create systems to make your region and business more and more worldwide-oriented, attractive and competitive. Let's talk about innovation assets and company support actions.

5 & 6 July - Focus III: PEOPLE

Help your stakeholder organisations to recruit, hire and retain good people from diverse backgrounds to reach their goals. Offer your people opportunities to learn new skills and advance their careers. Create a positive work environment that encourages people to stay and invest in your region. Insist on accountability and monitor individual and team performance. Think about the huge potential of migrants and women in charge.

6 July - And... what now?

The stakeholder alliance for a successful regional strategy where process, product and people support economy and social growth. Best practice and power competences for a valuable performance.
